experience

UX Design Intern - Pegasystems

Summer & Fall 2020 - Boston, Massachusetts

Created new designs for the Bolt Design Systems team, and redesigned existing components. Placed first in intern design competition, and gained R&D experience. Please contact for information on additional projects.

Market Research Intern - RFA

Summer 2018 - New York, New York

Richard Fleischman & Associates - Assisted with 20+ marketing/sales projects and campaigns. Conducted weekly competitor analyses and monthly overviews.

projects

Trashtalk - Responsive Web Design

Fall 2019 - Pittsburgh, PA

Designed and prototyped a responsive web interface to alleviate prominant issues in waste management and gamifies the process of staying green at Carnegie Mellon University.

DOU - Mobile Application

Spring 2020 - Pittsburgh, PA

Created prototypes of an application that recommends activities or places to go based on the personality of the user, their current mood, online reviews, and external factors such as the weather, location, and time.
